

OVERVIEW

Built upon the industry's premier interoperability solutions technology, KOLOGIK gives law enforcement agencies the power to access and share data by eliminating departmental and bureaucratic barriers. With a single

KOLOGIK interoperability networks helped cut San Diego's 911-response time in half! Without emergency response, a heart victim's chance of survival decreases by an alarming 10% per minute.

HOW IT WORKS

KOLOGIK's COPsync Mobile puts the power of information at every officer's fingertips. Working from a license plate number, COPsync Mobile searches hundreds of databases around the country in real-time to merge results and display vehicle registration information, as well as a full criminal background of the vehicle's owner.

alert messaging for situations requiring immediate assistance (i.e. FBI Confirmation Alerts, BOLOS and Amber Alerts).

This application is covered by multiple patents including but not limited to US 9,047,768 and US 9,641,965.

PRODUCT DETAILS

:: REPORTING ::

Arrest

Securely create, share and exchange arrest related electronic documents. All arrest reports created through KOLOGIK are instantly integrated

Incident

Record the details one time from one place – the scene of the incident. KOLOGIK automated communications tools offer smart solutions for data sharing.

:: MESSAGING ::

Real-time message officer to officer

Location based geo-fence messaging to allow all officers within a user defined area to communicate directly.

Integration with schools via COPSsync911

:: ALERTS ::

- BOLOs
- Officer created
- Officer needs assistance

:: AUTOMATIC VEHICLE LOCATION (AVL) ::

- Officers can view other units in area
- Notifications can be sent to specific locations

AVAILABLE BENEFITS

+ REAL TIME DATA

+ EASIER ACCESS

+ UNPRECEDENTED FLEXIBILITY

+ CREATES EFFICIENT WORKFLOWS

+ EASY TO USE INTERFACES

+ ELIMINATES CONFUSION

- Safety
- Enhances Officer Security and Public Protection
- Enables More Arrests
- Improves Data Quality
- Reduces Radio Traffic and Improves Accuracy of Data
- Facilitates Faster, More Accurate and More Complete Reports
- Improves Dispatch Efficiency
- Speeds Access to Vital Information
- Cost Effective
- Higher Conviction Rates
- Saves Time, Spares Lives
- Reduces Spending, Increases Revenue
- Improves Agency Efficiency
- Dramatically Reduces Errors
- Seamless Integration
