

Tyler County 2026 Hazard Mitigation Plan

Tyler County is updating its hazard mitigation plan! Learn how to get involved...

WHAT IS A HAZARD MITIGATION PLAN?

The Tyler County Hazard Mitigation Plan is a joint effort by the county, cities, and special districts to:

1. Identify natural hazards that pose the greatest threat to the area.
2. Assess local strengths and gaps in disaster response and resilience.
3. Develop long-term strategies to protect lives and property by strengthening community infrastructure.

WHY DOES HAZARD MITIGATION MATTER?

Investing in resilience before a disaster leads to major savings.

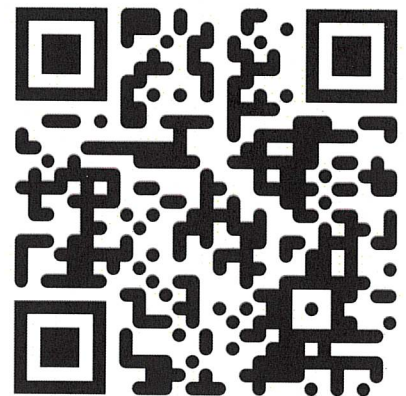

Every \$1 spent on community resilience and disaster preparedness saves \$13 in avoided economic losses, property damage, and cleanup costs.

— U.S. Chamber of Commerce, 2024

HOW CAN I GET INVOLVED?

Tyler County has launched a public engagement platform to ensure that all community members have an opportunity to have their voices heard.

A Public Meeting will be hosted on December 8th, 2025, at the Tyler County Courthouse, 100 West Bluff St Woodville, TX 75979 at 5 PM.

Public Engagement Opportunity for 2026 Tyler County Hazard Mitigation Plan Update

Tyler County is seeking feedback as it develops the 2026 Hazard Mitigation Plan Update. Public input will help the planning team, made up of county, city, and special district representatives, identify and analyze potential natural hazards—including flooding, hurricanes, and wildfires—that affect residents and recommend possible actions to reduce their impact throughout the County.

A **Community Feedback Session** will be held at the Tyler County Courthouse, 100 West Bluff St., Woodville, TX 75979, on **Monday, December 8th, from 5:00 pm – 7:00 pm.**

The plan's public engagement platform is available to the public at:

<https://langfordplanning.com/tyler-county-hazard-plan>

or through **scanning the QR code.**

The planning and grant consultants will be present to facilitate the meeting and answer questions. Under the Disaster Mitigation Act of 2000, the Federal Emergency Management Agency (FEMA) requires communities to develop a mitigation plan to minimize or eliminate the long-term risk to human life and property from known hazards. Communities with a FEMA-approved plan are eligible for specific grant funding under the Hazard Mitigation Assistance (HMA) Program, and your feedback will help ensure that a plan is developed in a way that will best prepare Tyler County and its residents for future hazards.
