

This draft is prepared in accordance with the Texas Interlocal Cooperation Act (Texas Government Code, Chapter 791), which governs agreements between local government entities like cities and counties.

INTERLOCAL AGREEMENT

BETWEEN THE CITY OF IVANHOE, TEXAS AND TYLER COUNTY, TEXAS (PRECINCT 1)

PARTIES

This Interlocal Agreement ("Agreement") is entered into by and between the City of Ivanhoe, a general-law municipality located in Tyler County, Texas ("City"), and Tyler County, Texas, acting by and through the Commissioner for Precinct 1 ("County").

RECITALS

WHEREAS, the City and the County are authorized to enter into this Agreement pursuant to Chapter 791 of the Texas Government Code; and

WHEREAS, the City and the County find that the exchange of equipment and services contemplated herein will increase the efficiency and effectiveness of both local governments; and

WHEREAS, the City currently owns a Gradall model: GW-394-G3WD S/N: 44840320 and the County possesses a Bomag 120mph soil stabilizer/ reclaimer and a FAE reclaimer attached to a Kubota tractor; and

WHEREAS, the parties deem it mutually beneficial to exchange ownership of the Gradall model: GW-394-G3WD S/N: 44840320 for the right to use the Reclaimer as described herein;

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements contained herein, the parties agree as follows:

1. TRANSFER OF OWNERSHIP (CITY TO COUNTY)

The City hereby agrees to transfer, assign, and convey all rights, title, and interest in the following equipment to Tyler County Precinct 1:

* Equipment: Gradall

* Make/Model: GW-394-G3WD

* VIN/Serial Number: 44840320

* Condition: The Tractor is transferred "AS IS, WHERE IS" with no warranties, express or implied, regarding its condition or fitness for a particular purpose.

2. USE OF RECLAIMER (COUNTY TO CITY)

In exchange for the transfer of the Tractor, the County agrees to provide the City with the use of the County's Reclaimer under the following terms:

* Availability: The County shall make the Reclaimer available to the City for a total of 30 days per calendar year.

* Scheduling: The City must provide the County with at least 7 days' notice prior to the requested use date. Use is subject to the County's prior scheduling needs.

* Operation: [Select one: The City shall provide its own qualified operator OR The County shall provide an operator at a rate of \$___25___ per hour].

3. MAINTENANCE AND LIABILITIES

* Fuel and Routine Care: The City shall be responsible for all fuel and daily routine maintenance (fluid checks, greasing) while the Reclaimer is in its possession.

* Damage: The City shall be responsible for any repairs resulting from the negligent use or misuse of the Reclaimer while in the City's possession. Normal wear and tear shall be the responsibility of the County.

* Insurance: Each party shall maintain insurance coverage or self-insurance sufficient to cover its own risks and liabilities associated with the equipment described in this Agreement.

4. TERM AND TERMINATION

* Effective Date: This Agreement is effective upon the date of the last signature below.

* Duration: This Agreement shall remain in effect for a period of 1 year, after which the City's right to use the Reclaimer shall expire, unless renewed in writing because of unused time remaining . The transfer of the Tractor to the County is permanent.

5. MISCELLANEOUS

* Authorization: This Agreement has been approved by the City Council of Ivanhoe and the Tyler County Commissioners Court.

* Entire Agreement: This document contains the entire agreement between the parties.

Hopkins County Precinct Roads

Process for Re-habilitating 1 mile of County Road with OIL SAND/ASPHALT
Driving Surface: Average 16 ft.

CONSTRUCTION:

Site safety measures: 24 hours

Reclaim base: 32 hours

Compact Road Surface: 16 hours

Apply Oil Sand/Asphalt surface: 16 hours

Drainage: 16 hours

EQUIPMENT:

Bomag Reclaimer/Stablizer... \$192 88 Equipment Watch/Blue Book

Backhoe/loader... FEMA #8382... \$69.08 per hour

Trailer-haul truck... FEMA #8601... \$17.10 per hour

Dump truck (2)... FEMA #8721... \$74.83 per hour

Cat 140 with 14 Ft mold blade... FEMA #8332... \$164.35

Pneumatic Roller ... FEMA #8223... \$122.99 per hour

Steel wheel roller... FEMA #8222... \$64.73

1/2 ton truck... FEMA #8801... \$16.68

LABOR/SUPERVISOR: 6

MATERIAL:

Resurface with pre-mix oil sand

100 tons per 1/10th mile @ \$77.00 per ton = \$7,700 per tenth x 10 = \$77,000 per mile

Hopkins County Debris Management Guidelines 2024-2025

In an effort to effectively maintain the traffic flow of county roads in Hopkins County, all debris cleared from Hopkins County roads is placed on the side of the road until collected. Upon removal from the roadside, all debris is picked up with a backhoe and loaded into a large dump truck(s) designed to hold an average of 8 cubic yards. Operated by county road crew members, chainsaws are needed to complete this task. Once transported to the precinct barn, the debris is unloaded as close as possible to the designated burn site. Operated by a county crew member, a backhoe is used to push all debris to a predetermined area for burning.

The sites continuously burn during each scheduled work day. This is an ongoing process.

There are six burn sites in Hopkins County certified by TCEQ (Texas Commission on Environmental Quality). The locations are as follows:

- Precinct 1 County Barn, 5516 Hwy 19 South, Sulphur Springs, TX 75482
- Precinct 1 Secondary Site, CR 1116, Brashear, TX 75420 (property ID R000019486)
- Precinct 2 County Barn, 12080 Hwy 11 E, Como, TX 75431
- Precinct 3 County Barn, 583 CR 3564, Dike, TX 75437
- Precinct 4 Cumby Site, FM 2653, South 1/7 miles from Hwy 11
- Precinct 4 North Hopkins Storage Site, 1994 FM 71 W, Sulphur Springs, TX 75482

All locations are under 24-hour surveillance and monitored by the respective precinct's Commissioner.

Hopkins County
Rural Transportation Maintenance and Construction Guidelines
2024-2025

**** All County Roads in the Hopkins County Rural Transportation System are 3rd Class**

MAINTENANCE of COUNTY ROADS

TRANSPORTATION CODE

TITLE 6. ROADWAYS

SUBTITLE C. COUNTY ROADS AND BRIDGES

CHAPTER 251. GENERAL COUNTY AUTHORITY RELATING TO ROADS AND BRIDGES

SHREDDING & BRUSH CUTTING OF RIGHT-OF-WAYS:

All right-of-ways will be shredded at least 2 times from May through October. Times will vary based on weather conditions and available manpower. The width of clearing will be at the commissioner's discretion.

DIRT ROADS:

All dirt roads will be bladed at a minimum of 2 times yearly. *Drainage will be assessed and maintained as needed. Times will vary based on weather conditions and available manpower.

ROCK/FLEX BASE:

All rock/flex base roads will be bladed at a minimum of 2 times yearly. *Drainage will be assessed and maintained as needed. Rock/flex base will be refreshed per Commissioner's judgment and budget. Times will vary based on weather conditions and available manpower.

OIL SAND ROADS:

All oil sand roads will be maintained by one of 4 methods per the Commissioner's judgment and budget. Times will vary based on weather conditions & available manpower.

1. Base Failure aka blowout, pushout, mashout — digging out the existing area and filling it with sub-base and oil sand.
2. Pot Holes — hand patching technique
3. *Drainage
4. Overlaying

CHIPSEAL ROADS:

All chipseal roads will be maintained by one of 3 methods per the Commissioner's judgment and budget. Times will vary based on weather conditions and available manpower.

1. *Drainage
2. Patch with oil sand
3. Overlaying

ASPHALT ROADS:

All asphalt roads will be maintained by one of 2 methods per the Commissioner's judgment & budget. Times will vary based on weather conditions & available manpower.

1. Sealing cracks
2. *Drainage

ROAD CONSTRUCTION

DIRT ROADS:

*Drainage will be established. Road right-of-way will be 60' or no less than 40', where at all possible within established fence lines.

ROCK/FLEX BASE:

*Drainage will be established. Road right-of-way will be 60' or no less than 40', where at all possible within established fence lines. Surface will depend on the right-of-way. Flex base will be 4" to 6" in depth.

OIL SAND ROADS:

Method #1:

*Drainage will be established. Road right-of-way will be 60' or no less than 40', where at all possible within established fence lines. Will have a flex base substructure of 4" - 6" in depth. The road surface, depending on right-of-way, will be compacted oil sand 2" in depth.

Method #2:

*Drainage will be established. Road right-of-way will be 60' or no less than 40', where at all possible within established fence lines. Old road surface/base will be rehabilitated at a depth of 6". Re-claimed material will be recycled with a bonding agent and compacted.

CHIPSEAL ROADS:

*Drainage will be established. Road right-of-way will be 60' or no less than 40'. Will have a flex base substructure of 4" - 6" in depth, where at all possible within the established fence lines. The road surface, depending on right-of-way, will be compacted oil sand 2" in depth. The chip seal will be applied to this sub-surface.

ASPHALT ROADS:

*Drainage will be established. Road right-of-way will be 60' or no less than 40'. Base stabilization.

*Drainage consists of clearing brush, establishing or clearing the ditches, cross culverts, and driveway culverts.

CONSTRUCTION METHODS ARE PER COUNTY COMMISSIONERS COURT
