Coordinator

Dear Judge Powers,

Southeast Texas RC&D is a not for profit organization dedicated to improving the quality of life and environment in southeast Texas. We currently serve sixteen counties in this part of the state with emphasis on rural communities.

Enclosed with this letter is an invoice for our annual request to be added to your budget for sponsor dues. We would like to take this opportunity to ask for your continued financial support of the Southeast Texas RC&D program for 2027. In order for us to successfully fulfill our goals in the area of rural development and resource conservation, we need your help as a sponsor

Our organization assisted your county in disposing of abandoned tires and assisted a local school district, Chester ISD, in purchasing a new school bus which burns cleaner fuel and will help to improve air quality. We assisted a low income family in replacing their failing waste water system.

We presently have funds for a waste collection event (includes tires), dump site cleanups, new school bus or retrofit and community public works service repair. If interested, please contact our office.

We receive no funding for our operations from the state or federal government. It is only through local sponsorship's that we are able to provide services. For every dollar that is donated, we locate and leverage at least three to four dollars in outside funds.

On behalf of the Board of Directors, I would like to offer my heartfelt thanks for your support in the past and look forward to assisting you and your community in the future.

Sincerely,

Mark Allen
