Subject: Tyler County, TX - Surface Go Tablets

Hi Janet,

Below is some additional information regarding the Surface Go 4 tablets used by the ExpressPoll Electronic Pollbook system:

Due to security updates and our ExpressPoll system being moved to the Windows 11 operating system, the last release that supported the Go 1 devices was 7.2.8.0 as the Go 1 devices only support Windows 10. This unfortunately means that, in order to upgrade to 7.2.9.0 (as the State will eventually require), the Surface Go 1 devices used in your ExpressPoll system would need to be replaced with a newer model since they are not supported in the latest application version (7.2.9.0), or any go-forward versions.

We are working with the State to have them approve both ExpressPoll 7.2.8.0 (your current version) and 7.2.9.0 for use in November 2026. If they do this, it will mean that you can still use the Go 1 tablets until the State requires an upgrade to 7.2.9.0, likely sometime after November, with first use being in 2027.

Many of our customers that do not have elections until later in 2027 are choosing to stay on 7.2.8.0 and put the purchase of the tablets into their next budget. The only potential risk would be if the State requires an update and you end up having an election in early 2027, but if you don't think that is likely, you should be fine to stay on 7.2.8.0 with a plan to upgrade in your next budget cycle.

For the current tablets (Go 1), we have had some customers reimage them to be on 'standard' Windows 10, which would allow you to use them like a normal Windows device. Some counties have done this and use them for forms or other things they want Poll Workers to have in the field, others have used them in different parts of the county for various functions - but we can at least make them 'not a pollbook' so you can actually use it. Without reimaging them, your IT likely won't be able to do anything with them otherwise.

As for the versions, the Go 4 is the latest and greatest, and should have plenty of support now that it is on the Windows 11 operating system.

I hope this helps. If there is any other information I can provide, please let me know and I will be happy to help.

Thank you,

Bridgette
