Dear Bill,

In the specifications that I sent to you the following statement should have been included: This Equipment will do work that will meet standards as set out in Senate Bill No. 5 as passed in 1971 and signed by the Governor and we guarantee to be of archival quality.

The Court is going to insist that this be included before they will accept the bid of anyone.

Bill I know this will be no problem for 3M but it needs to be put in writing and recorded along with the contract.
