DEEP EAST TEXAS REGIONAL EMPLOYEE ASSISTANCE PROGRAM

STATEMENT OF POLICY AND PROCEDURES

COUNTY OF TYLER

It is the policy of the County of Tyler to help employees whose poor job performance is a result of behavior/medical problems, possibly avoiding discipline which could result from such behavior. In order to accomplish this, we are beginning a new program which will provide assistance to these persons with Tyler County Government. The following shall be our policy:

- I. The County of Tyler recognizes alcoholism, drug abuse and other mental conditions as illnesses that can be successfully treated.
- II. The purpose of this policy is to assure that all employees having these illnesses will receive the same consideration and opportunity for treatment that is presently extended to all other employees having other illnesses.
- III. The social stigma often associated with these illnesses has no factual basis. It is expected that a county-wide positive attitude and realistic acceptance of these illnesses will encourage our employees to voluntarily seek and accept available treatment. Our approach is designed to achieve prompt results, hopefully before the situation has progressed to the point of being virtually irreversible.
- IV. Our concern is not strictly limited to the effects of alcohol and drug abuse as it relates to the employees performances on the job, but includes all behavioral/medical problems as soon as they begin to affect an individual's job performance. The problems dealt with by this policy are defined as follows:
 - a. Alcoholism -- An illness in which an individual's drinking seriously and repeatedly interferes with his job performance.
 - b. Mental Illness -- Behavior which seriously and repeatedly interferes with job performance.
 - c. Drug Abuse -- Use of drugs which seriously interferes with job performance, or health, or being under the influence of a drug that isn't under the valid medical directions of a licensed physician.

- V. The implementation of this policy will be the responsibility of all division directors, department heads and supervisors who will follow procedures to assure that no employee with alcohol, mental health, or drug problems will have his or her job security threatened by submitting themselves for diagnosis and treatment.
- VI. It is recognized that department heads and supervisors do not necessarily have the professional qualifications to make any judgement as to whether or not an employee is addicted to alcohol or drugs; just as they are probably not qualified to diagnose any other illness. Referral for diagnosis and treatment may be based strictly on job performance which seemingly results from an apparent medical or behavioral problem.
- VII. It will then become the responsibility of the employee to comply with the referrals for diagnosis and to cooperate with the prescribed remedial programs.
- VIII. The refusal to accept diagnosis and treatment by an employee, or continued failure to report for and/or respond to treatment will be handled in exactly the same way that similar refusals are handled for all other illnesses, when the results of such refusals or failures continue to affect job performance.
 - IX. It is expected that through this policy, employees who suspect that they may have an alcohol, mental health, or drug problem, even in its early stages, will be encouraged to seek diagnosis, and follow through with the prescribed treatment as necessary.
 - X. The confidentiality of records kept of "alcohol-mental illness, drug involved employee" is necessary and will be preserved, just as is the confidentiality of all medical-insurance records.

Tom D. Mann, County Judge
