OMNI MICROCASSETTE DICTATION UNIT

FEATURES -- ADD VALUE

• Combination Use – OMNI can handle double-duty work.

言うろ

- Microcassette World's smallest cassette with 60-minute record time.
- Pistol-Grip Hand Microphone With one-button control operation.
- Sonic Search Audible fast/forward place finding.
- Instant On/Automatic Off OMNI doesn't need an on/off switch. It remembers for you.
- •Super Sound Quality Plays music with excellent clarity.
- Touch-Mode Controls Easy to use, touch action.
- Safety Tones and Interlock Controls --Guard against lost dictation.
- •Vocal Adaptability Hold the microphone any way you like and voice pick-up will be clear and sharp.
- Left or Right Microphone Mounting
- Large Hidden Speaker Gives group playback.

- •Confidential Playback Private listening from hand microphone or headset.
- Telephone Recording Verbatim record of telephone conversations.
- Conference Recording Excellent for small groups.
- Instant Recall Replays a few words for the secretary each time listen footpedal is pressed.
- Speed Control Wide range adjustment to aid transcription.

OMNI DICTATION

OMNI is compact and takes up less desk area than a standard letter. Yet, it's packed with all the necessary features for every dictation need. OMNI is always ready for dictation instantly and will turn off automatically after 30 seconds when not in use. This exclusive feature means that no on/off switch is required-OMNI remembers to turn itself off for you.

The hand microphone features the Lanier famous "pistolgrip" styling and one-button operation. Which means that it is the most convenient hand microphone available. Simply roll up to "Record," move to neutral to "Pause," pull all the way down to "Rewind," and then release to "Listen." The Touch-Mode selectors are interlocked to prevent more than one operation simultaneously, and warning tones will let you know when the following conditions occur: no cassette in the unit; pre-recorded cassette; near-end-ofrecording brief tone.

The unit has excellent sound quality and plays music with surprising clarity, and sound quality is the most important job that dictation equipment performs.

OMNI TRANSCRIPTION

OMNI is ready for the secretary's use by plugging in the footpedal and the headset. The unit produces crystal-clear voice reproduction. The easy-to-use foot control allows convenient playback, fast/forward, or reverse operation, with instant start/stop action. The Mic/Speaker switch lets the secretary listen privately from the headset (in the Mic position) or from the large built-in speaker (Speaker position).

The indexing system provides the secretary with a roadmap guide to the dictated cassette which shows how many letters are recorded and the length of each one. Also, special instructions can be located easily. This helps to eliminate rough drafting and typing restarts. The unit also has a speed control to help secretaries understand difficult words or terminology. Thus, dictation speed can be matched with typing speed.

LANIF

1700 CHANTILLY DRIVE, N.E. ATLANTA, GEORGIA 30324

PRINTED IN USA

INSTANT ON/AUTOMATIC OFF:

No power switch required. OMNI actuates and turns off automatically.

POWER INDICATOR:

Red (LED) on front panel.

HAND MICROPHONE:

Pistol-grip styling with one-button dictation control, red (LED) record light, and Sonic Search (audible fast/forward) button.

VOICE MIRROR:

Mod light (LED) flashes to trace voice while recording.

TONE (Recessed Left Side): Rotates from base to treble.

VOLUME (Recessed Left Side):

Rotate control for comfortable playback listen level.

INDEXING SYSTEM:

Index strip holder. The scanner moves from left to right and indicates 0 to 30 minutes of recording time (one side of microcassette) and Index Marker on the scanner allows the originator to mark the index strip as follows:

- Push in and up to mark end of letters or 1. correspondence.
- 2. Push in and down to mark instructions for the secretary.

TOUCH-MODE SELECTORS:

- Rewind Mode: unit rewinds at a 15/1 speed ratio and 1. automatically stops, resets, and turns off after rewind is completed. It requires approximately 2 minutes to completely rewind or fast/forward a microcassette.
- Fast Forward Mode: unit advances tape at 15/1 speed 2. ratio and automatically stops, resets, and turns off after fast/forward is completed.
- 3. Listen Mode: allows playback without using hand microphone or foot control. The unit will stop, reset, and turn off at the end of tape.
- 4. Stop Mode: resets any active mode function.

EJECT KEY:

Hold down to open cassette compartment. Key resets automatically upon release.

TELEPHONE RECORD:

Connect (optional) telephone pickup to telephone receiver

CONSTRUCTION:

High impact polystyrene with chrome trim.

COLOB:

Light ash, medium blue control panel, chrome trim and mode selectors. Transparent cassette compartment cover.

RECORD DRIVE SPEED: 15/16 ips + 2%.

SPEED CONTROL (Transcription): Variable ± 15%.

REWIND AND FAST/FORWARD TIME:

130 seconds, complete microcassette

• Eand placet the micro plug into the jack on the rear of the OMNI unit. To record conversations, just move the telephone key on the front panel down and (LED) telephone light will come on. Move the TEL key up to stop recording.

LEFT OR RIGHT MICROPHONE CRADLE MOUNTING:

Microphone cradle can be installed on either side of the unit with coin-slotted screw.

DIC/CONF SWITCH (Recessed Under Right Front): Slide switch allows instant choice for dictation or recording small conferences.

HEADSET JACK (Right Side):

Connection for mini-plug from the headset listening device.

MIC/SPKR SWITCH (Recessed Under Right Front): Provides playback from large, built-in speaker or allows confidential playback through the microphone (for dictation) or headset listening device (for transcription).

SPEED CONTROL (Left Side):

Adjusts speed for natural recorded voice, wide range from fast or slow. This control operates only when the foot control is used or microphone is disconnected.

RECORD GAIN CONTROL (Bottom of Unit)

Peak sensitivity for individual originators. Rotate clockwise to increase gain (preliminary setting 1/4 turn from 0 position). OMNI has automatic gain control which provides vocal adaptability.

FAIL-SAFE WARNING SYSTEM

Touch mode selectors interlock to prevent operation during other functions and guard against lost recording. A warning tone signal will be heard:

- 1 When attempting to record without microcassette
- 2. When attempting to record on a pre-recorded cassette with tabs removed
- 3. For 6 seconds, approximately 3 minutes before end of tape.
- Continuously when end of tape is reached and 4. cassette motion stops.
- When the unit is in the idle or neutral position for 30 5. seconds, the unit will automatically turn off, reducing motor and component wear.
