Royal 990 Electric Office Typewriter

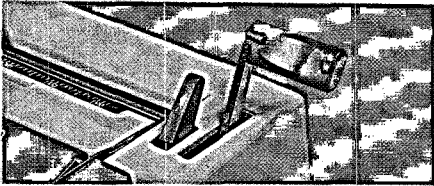

The Royal 990 gives executive correspondence a new level of quality—almost as though it came off a printing press. And it does it smoother and faster with a wide range of features. Like the tandem ribbon system that lets a typist change from fabric to carbon ribbon just by turning a dial. And seven repeat operations that go into action automatically, at the touch of a key. Even correcting errors is faster with the half space advance key.

Any typist will also appreciate such Royal refinements as the automatic paper injector/ejector and the retractable paper support/page-end indicator. And it's almost impossible to type fast enough to jam keys, distort spacing or overprint characters.

Available with a choice of 13", 16" or 18" carriages, the Royal 990 is versatile enough to handle any typing requirement. And if you require a dependable office electric that uses a fabric ribbon only, the Royal 991 is the answer. Except for its fabric ribbon, it's just like the 990; it provides top quality for every office typing job.

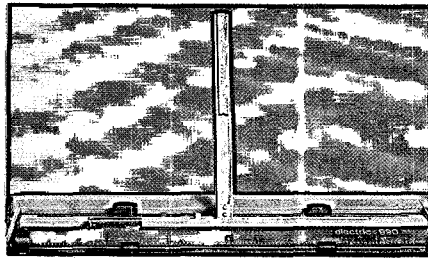

Tandem-Ribbon System

A 4-position ribbon selector permits instant switching to carbon cassette, red and black fabric, as well as stencil. A color coded optic indicator provides easy visual reference. The carbon ribbon cassette aids in quick, clean insertion of carbon ribbon.

Automatic Paper Injector/Ejector

Places paper into typing position and removes it in one swift motion. Available on 13" and 16" carriages only.

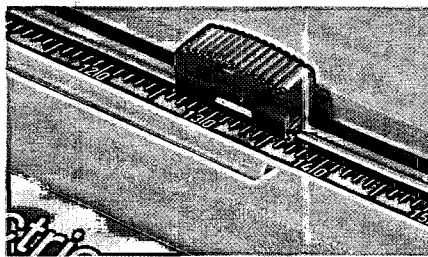

Retractable Paper Support & Page-End Indicator

Flips up for easy viewing of typed work. Instantly shows how many typing lines remain on the page.

Horizontal Half Space Advance Key

For easy correction of typing errors. Permits typist to insert four characters when there is space for only three.

Rapid-Set Visible Margin Controls

Without moving the carriage, margins are set with a single fingertip motion.

Key-Set and Swing Tabulation

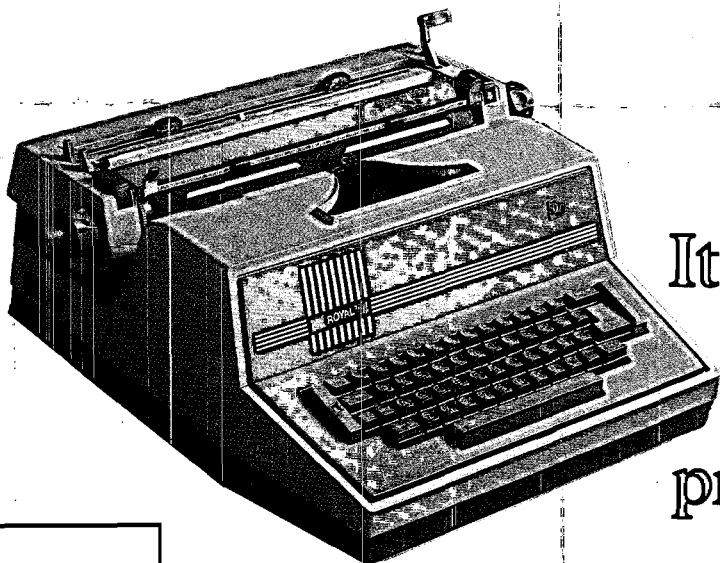

Tab stops for every carriage position make columns of figures as easy to type as text. Single and total tab clearance on carriage return. Swing tabulation allows the carriage to move immediately to a pre-set tab setting without first returning to the left margin.

Other Time-Saving Royal Features

- Contoured designed keyboard. 45 keys—90 characters
- Automatic power threader for carbon cassette
- Reverse underscoring
- Automatic vertical line on carriage return
- Vertical half line spacing (1, 1½, 2)
- Five automatic repeat keys: X, period, asterisk, equals, underscore/hyphen
- Repeat Forward and Back Spacing
- Keyboard control tabulator key
- Visible 4-position impression control
- Smooth, silent carriage return
- Jam-proof keys
- Super size function keys
- Transparent card holder with alignment scales and ruling guide
- Copy control dial
- Erasure table and paper deflector
- Erasure shields
- Variable platen release
- Automatic line finder
- 13" carriage with 12¾" writing line
- Durable housing
- Wide variety of executive and other distinctive type styles
