TYLER COUNTY COMMISSIONER'S COURT
 SPECIAL MEETING
 FEBRUARY 17, 1984----10:00 A. M.

VOL 009 PAGE 01

A Special Meeting of the Commissioner's Court met on Friday, February 17, 1984, at 10:00 A. M. All members being present. The meeting was opened with prayer by Commissioner James R. Jordan.

A motion was made by Commissioner Riley and seconded by Commissioner Lowe to table until later in the meeting any decision to be made concerning the one (1) bid received for the Sheriff's Car from Knapp Ford Co., in order that members of the Court could consult with Sheriff Leon Fowler about the bid price. Sheriff Fowler was contacted and appeared before the Court, decided that the bid priced at \$400.00 was acceptable. At this time, a motion was made by Commissioner Mahan and seconded by Commissioner Riley to approve the bid as presented. All voted yes and none no. Bid received listed below:

Knapp Ford Sales, Inc.-----\$400.00
 See Attached.

A motion was made by Commissioner Mahan and seconded by Commissioner Jordan to approve the bid received from Lufkin Typewriter & Cash Register Co., Lufkin, Texas, for a Royal 5005 Electronic Typewriter, to be used by Wanda Brasher, Justice of the Peace Pct. #1; also, to allow the County Attorney, Patrick O. Hardy, to purchase the same type typewriter for his office as it was discovered at this time that his office needed a new typewriter also. Bids received as solicited are listed:

Lufkin Typewriter & Cash Register Co., Lufkin, Texas-----\$864.00
 IBM, Beaumont, Texas----See List of Bids Attached.
 All voted yes and none no. See Attached.

A motion was made by Commissioner Mahan and seconded by Commissioner Jordan to accept the recommendation of Bill Jefferson, Telephone Consultant for Tyler County, to install the new long distance telephone service offered by Direct Dialing System, Nederland, Texas. All voted yes and none no.

A motion was made by Commissioner Riley and seconded by Commissioner Lowe to accept the high bid received from Mr. and Mrs. H. B. Duncan, Woodville, Texas, for the Royal Typewriter, #15, one of the items listed in inventory of old office equipment to be sold. Bids received for Typewriter #15 are listed below:

Mr. and Mrs. H. B. Duncan, Woodville, Texas-----\$ 250.00
 Collins Paint & Decorating Co., Woodville, Texas----- 25.00
 Patricia Brown, Woodville, Texas----- 15.00

A motion was made by Commissioner Lowe and seconded by Commissioner Riley to approve the one (1) bid received from C. R. Currie, Woodville, Texas, for a Monroe Calculator, #17, also an item listed in inventory of old office equipment to be sold. Bid received for Calculator #17 listed below:

C. R. Currie, Woodville, Texas-----\$ 10.00

A motion was made by Commissioner Riley and seconded by Commissioner Jordan to accept the one (1) bid received from Patricia Brown, Woodville, Texas, for the Royal Typewriter, #13, one of the items listed in inventory of old office equipment to be sold. Bid received is listed below:

Patricia Brown, Woodville, Texas-----\$ 10.00

After all bids received had been opened and acted upon, a motion was made by Commissioner Lowe and seconded by Commissioner Mahan to take all the remaining equipment off the County list, to be sold, given away to anyone interested, and any left to be thrown away. All voted yes and none no on all motions made concerning equipment sales. See Attached.

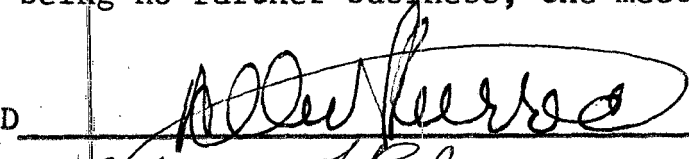

A motion was made by Commissioner Riley and seconded by Commissioner Lowe to approve paying bills, as submitted by County Auditor Ann Nichol. All voted yes and none no. See Attached.

A motion was made by Commissioner Riley and seconded by Commissioner Lowe to correct the wording of a motion made in the February 13, 1984, meeting as follows: Incorrect motion---A Motion was made by Commissioner Riley and seconded by Commissioner Lowe to advertise for bids on three (3) dump trucks, to be used by Pcts. #I, II, and IV, bids received to be opened on Monday, March 12, 1984, at 10:00 A. M. All voted yes and none no. Correct motion--A motion was made by Commissioner Riley and seconded by Commissioner Lowe to advertise for bids on three (3) dump trucks, to be used by Pcts. I, II, and IV, bids received to be opened on Monday, March 12, 1984, at 10:00 A. M.; with Time Warrants to be issued for each purchase, to be paid in yearly designated amounts and at interest rate stated by Citizens State bank. All voted yes and none no.

A motion was made by Commissioner Riley and seconded by Commissioner Lowe, upon request by County Attorney Patrick O. Hardy, to correct the wording of a motion made in the January 30, 1984 meeting as follows: Incorrect motion----A motion was made by Commissioner Riley and seconded by Commissioner Lowe to approve the appointment of Patrick O. Hardy to the office of County Attorney, replacing Joe R. Smith, who resigned effective February 1, 1984. Mr. Hardy will serve in this position until the General Election in November, 1984; also, to continue serving as Assistant to the District Attorney from both Hardin and Tyler Counties, receiving no salary from Hardin County. All voted yes and none no. Corrected Motion----A Motion was made by Commissioner Riley and seconded by Commissioner Lowe to approve the appointment of Patrick O. Hardy to the office of County Attorney, replacing Joe R. Smith, who resigned effective February 1, 1984. Mr. Hardy will serve in this position until the General Election in November, 1984; also, to continue serving as Assistant to the District Attorney from both Hardin and Tyler Counties, receiving no salary from Hardin County, but receiving from Tyler County the sum of \$2509.50 per month, broken down as follows: County Attorney Salary----\$1737.00; Foster Child Attorney--\$200.00; District Attorney's Assistant---\$472.50; and monthly car allowance--\$100.00. Also, Tyler County will no longer pay the supplemental salary of the Bi-County Secretary and the Bi-County Investigator, as was done in the past. All voted yes and none no.

There being no further business, the meeting adjourned.

SIGNED

Allen Sturrock, County Judge

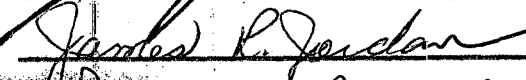

Maxie Riley, Comm. Pct. #1

H. K. Lowe, Comm. Pct. #2

Jerry Mahan, Comm. Pct. #3

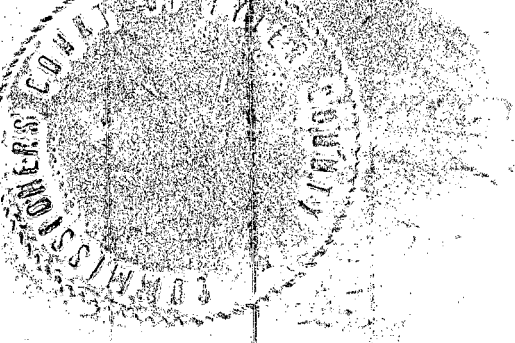

James R. Jordan, Comm. Pct. #4

ROYAL

Royal 5005
All-Electronic
Print Wheel Typewriter
with Dual Pitch

In order to improve efficiency and increase office productivity, the all-electronic Royal 5005 accomplishes automatically much of the tedious work formerly performed manually by the typist. Although it's highly advanced in technology, the Royal 5005 is completely simple to operate. Its electronic keyboard is thoroughly familiar to any typist, so training and adjustment time are minimal. For business, industry and government, the Royal 5005 is the ideal bridge from yesterday's electromechanical typewriters to the automated world of microprocessor controlled electronics.

Control functions right from the keyboard

Virtually all operating functions are simply and easily controlled from the electronic keyboard. At the touch of a key margins are set, paper is positioned up or down, impression control is adjusted and line spacing may be switched to one of four settings. LED indicator lights alert the typist to the function currently in operation: pitch selection, line spacing, half spacing and the shift lock.

The versatile keyboard also provides repeat action for all 46 typing keys, as well as the space bar, the back space and correction keys, plus indexing.

Outpaces high speed typists

The Royal 5005 can handle the fastest typing. Even during sudden bursts of typing speed, the keyboard memory stores the last 16 characters typed and prints them in correct sequence without jamming or character misprinting.

Dual pitch for increased flexibility.

To accommodate the variety of print wheel type styles offered, The Royal 5005 switches pitch instantly from 10 characters per inch to 12 characters per inch. An indicator light reminds the typist which pitch is programmed. It's almost like having two machines in one.

Clean, rapid-changing ribbon cassettes

Royal has completely eliminated the mess and fuss of changing ribbons. Depending on the typing job, the typist may simply drop in a correctable carbon, single-pass carbon, multi-strike carbon or fabric ribbon cassette. Correction tapes are available in Lift-Off for correctable carbon ribbon and Cover Up for the other carbon and fabric ribbons.

Other convenient features

- Retractable paper support/page-end indicator
- Automatic paper insertion
- Automatic paper advance and ejection
- Electronic line space selector for 1, 1½, 2, 2½ spaces
- Up to 500-hour memory retention for functions
- Express back space key
- Vertical half space up and down keys for sub and superscripts
- Horizontal half space key permits insertion of a missing character
- Copy control
- Modular design and self-diagnostic system for rapid servicing

Specifications

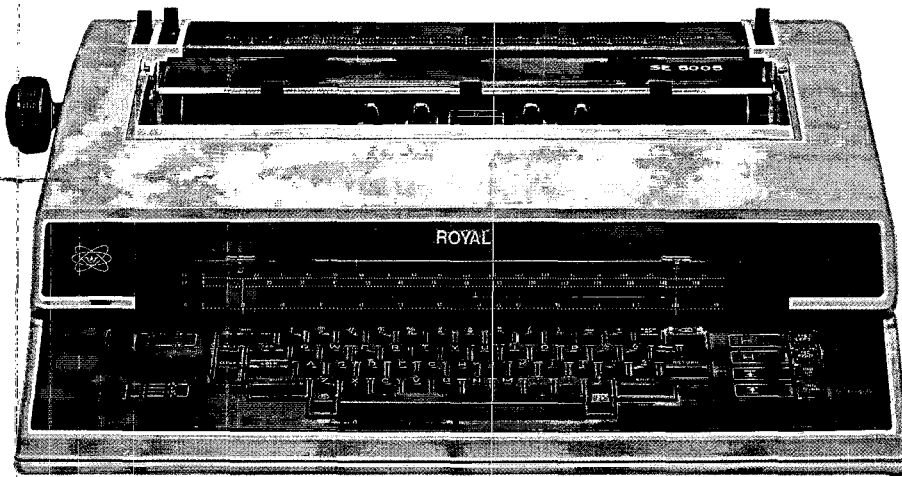

Paper capacity: 16½"

Typing line: 13.2"

Dimensions: 22.2" (W) x 6.85" (H) x 19.4" (D)

Weight: 42 lbs.

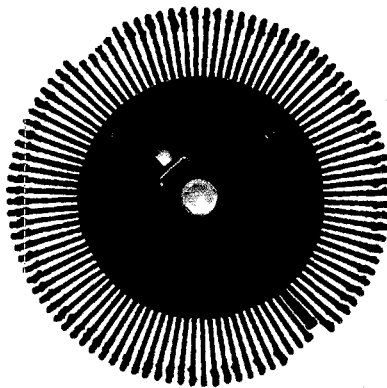

Power requirements: 110V AC, 60Hz

Royal 5005
Simply perfect
because it's
perfectly simple.

Two-line correcting memory automatically lifts off 132 characters

In addition to conventional lift-off corrections, there's an exceptionally large, automatic, 132-character correcting memory. It's simple to delete as much as two complete lines by the use of the correction key. Errors are cleanly removed with a correctable carbon ribbon cassette and lift-off tape.

Laser-sharp impressions with interchangeable print wheels

Royal offers a wide selection of print wheels with distinctive type styles to fit any typing job. The durably constructed print wheels produce sharp, clean, perfectly aligned characters. Print wheel technology combined with advanced electronic design produce exceptionally quiet operation.

IBM

**The IBM
Correcting
Selectric® III
Typewriter**

The IBM Correcting "Selectric" III Typewriter

The typewriter that speeds workflow by eliminating errors

Typed originals—letters, reports, memos—can be turned out quickly and ready for signature the first time with the IBM Correcting "Selectric" III Typewriter. It enables the typist to work at near draft speed because there is no time wasted correcting or erasing mistakes.

Error Correction Key

With the correcting feature built into the keyboard, eliminating errors is as simple as backspacing with the correcting key, retyping the incorrect character and typing in the correct character. There's no need to resort to old-fashioned manual correction methods.

Dual-Pitch Versatility

On the dual-pitch model, a simple flick of a lever makes it possible to type 10 characters per inch (for impressive, easy-to-read results) or 12 characters per inch when you have less space.

Lighted Margin Scale

On the dual-pitch model, the lighted margin scale shows you at a glance whether you're typing 10 or 12 pitch. The light also acts as a quick way to see if the machine is on or off. A simple touch of the dual-pitch lever switches the light from one margin scale to the other.

Quick Change Type Styles

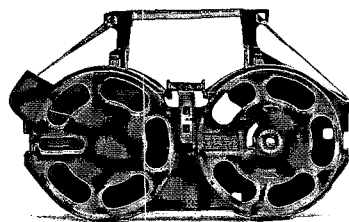

You can change a type size or style on the "Selectric" III as easily as switching elements. IBM elements offer a wide choice of type styles and sizes. Custom elements are available for special requirements such as technical symbols, foreign languages and currencies.

Large, Glare-Free Keys

For an easier typing touch and increased productivity, the IBM Correcting "Selectric" III features keys that are 25% larger than earlier "Selectric" keys. The keys are also non-reflective to help eliminate distracting glare. In addition, "Selectric" III is equipped with a familiar 92-character keyboard that requires no retraining.

New IBM "Selectric" III Typewriter Ribbon Cassette

Simplified cassette design makes insertion and removal easy by eliminating manual threading and rewinding. Simply remove a used cassette and put in a new one, quickly and cleanly. And greater character capacity means longer ribbon life.

Page End Indicator / Paper Rest

This feature can help give you uniform page endings (2-, 1½-, 1-inch margin) every time when typing a standard (8½ x 11") sheet. The indicator also serves as a paper rest.

Acoustical Sound Hood

This feature can help reduce noise and glare from overhead office lighting, creating a more pleasant and productive working environment.

Color Choice

The standard case color for the IBM "Selectric" III is Topaz Bronze with Raven Black keybuttons. Optional custom case colors—also with Raven Black keybuttons—include Pebble Gray, Marlin Blue, Raven Black, Sable Brown, Cocoa Brown, Laurel Green and Autumn Red.

Special Commemorative Model

To commemorate the Fiftieth Anniversary of IBM Typewriters, the "Selectric" III is available in a special Fiftieth Anniversary model for a limited time only. It comes in an attractive two-tone color combination: Deep Charcoal with a Raven Black bottom cover. A gold-colored nameplate with logo identifies the typewriter as the "IBM Fiftieth Anniversary Model." This offer expires December 31, 1983.

Specifications Models 6700 6705 6701

**IBM
Electronic
Typewriters**

IBM Electronic Typewriter 85 and IBM Electronic Typewriter 65

The power of today's technology in IBM Electronic Typewriters moves typing to a high level of ease and efficiency. The Electronic 85 provides time-saving enhancements that help typists to achieve increased productivity. Among them, a 15,500 character storage capacity and an electronic document revision capability.

The Electronic 65 has many of the same features as the Electronic 85, but it has a storage capacity of approximately 7,400 characters, and line-by-line document revision. However, it can be *upgraded* in your office to have the same capabilities as the Electronic 85.

Electronic Document / Phrase Storage

With the Electronic 85 and 65, anything that is typed repeatedly such as addresses, titles, key phrases, letters, forms, and sentences can be stored and played out error-free without retyping. Complete documents can be created at your command by combining a series of stored phrases with original typing.

Forms Typing

Allows formats to be stored, minimizing typewriter setup and expediting forms fill-in. The typewriters can be instructed to stop at positions where material is to be inserted.

Memory Control Panel

Both the Electronic 85 and 65 allow typists to store and access text, move to points of change, make corrections and play out error-free.

Automatic Column Layout

With simple instructions from the typist, the Electronic 85 and 65 are ready for column layout. Tabs can be automatically set and columns aligned without any "figuring" by the typist.

Automatic Number Alignment

Positions the carrier for easy, accurate alignment of statistical columns on the Electronic 85 and 65. Eliminates tedious backspacing. Frees typists to concentrate on accuracy.

Margins and Tabs

Margins and tabs on both IBM Electronic Typewriters can be set and cleared electronically with the touch of a few keys. Frequently used formats can be stored and set up automatically for future use.

Full-Line Error Correction

This feature on the Electronic 85 and 65 enables the carrier to back up and remove a single character, a word, or an entire line—including underlining—to the point of error... eliminating wasted time and motion.

Triple Pitch

Both typewriters give you your choice of typing either 10 or 12 characters per inch, or in proportional spacing. Use 10 pitch for impressive, easy-to-read results, 12 pitch when space is at a premium—in forms, reports and long texts, for example. Proportional spacing gives each character the proper space for a distinctive look.

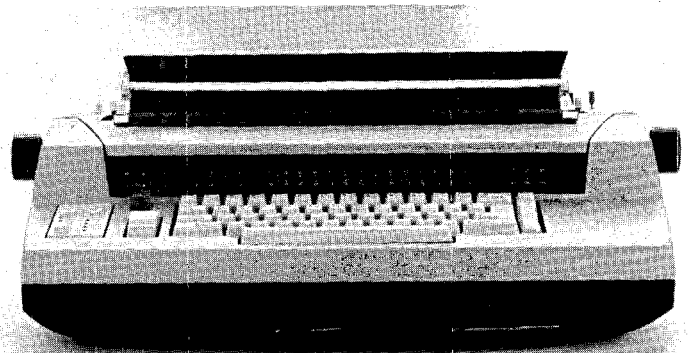

Automatic Justification

Typists can use the Electronic 85 and 65 to automatically justify the right margin of a page for a clean, business-like finished letter or document.

IBM Typewriter features at a glance:

	IBM Electronic 85	IBM Electronic 65
Approximate character storage capacity	15,500*	7,400
