Woodville, TX 75979-5245

Dear Hon. Jacques L. Blanchette,

Starting this February, county websites hosted by the Texas Association of Counties County Information Resource Agency (TAC CIRA) will receive an updated design template and editing tools. This upgrade will allow county websites to display properly on mobile devices (responsive design) and meet ADA accessibility standards. In addition to these two major items, the websites will receive an updated layout and style.

This upgrade has been in the works for a while and we are very excited for your county to see the new design. In order to provide a quality update to the websites, there will be an increase to the website hosting and content management fees. The increase in service fees will not begin until January 2019. TAC is subsidizing the upgrade cost for FY 2018 to allow time for necessary budget planning for FY 2019.

TAC CIRA Annual Website Fees	FY 2018	FY 2019
Website Hosting (required)	\$550.00	\$800.00
Website Content Management (optional)	\$500.00	\$725.00

We take pride in offering an economical solution for county websites and this is the first time website hosting or management fees have been increased since 2012.

Additional information regarding website training and deployment of the new website for your county will be coming soon.

Thank you,

Brittany Lane
TAC CIRA Manager

Dear Judge Blanchette,

We hope you are enjoying the updated design and editing features of your county website hosted by the Texas Association of Counties County Information Resource Agency (TAC CIRA). This recent upgrade allows your website to display properly on mobile devices (responsive design) and meet ADA accessibility standards, in addition to an updated layout and style.

As we communicated earlier in the year — a copy of that letter is enclosed — TAC CIRA’s annual fees for website hosting and content management are increasing for the first time since 2012, taking effect in January 2019. TAC subsidized the price increase in 2018 in order to allow your county to plan for the change. The 2019 website hosting and content management prices are set forth in Exhibit A to the Services Agreement and summarized here:

TAC CIRA Annual Website Fees	2018	2019
Website Hosting (required)	\$550.00	\$800.00
Website Content Management (optional)	\$500.00	\$725.00

(1)

Due to this price increase, you will need to sign an updated TAC CIRA services agreement, which you will find enclosed with this letter. Please sign page 13 of the enclosed updated Services Agreement and fill out the contact information requested at page 14. Exhibit D need only be signed if you would like to subscribe to new TAC CIRA services, and Exhibit B only applies to TAC CIRA Members who currently use TAC CIRA’s email support services. If you are receiving this correspondence, you are already using one or more of TAC CIRA’s web hosting or content management services and can ignore Exhibit C.

Please forward the executed Services Agreement and your contact information to TAC CIRA by February 5, 2019, via one of the methods indicated below. Please note that the email address for corresponding with TAC CIRA has changed, as reflected below. Digital signatures are accepted. Invoices reflecting the updated website hosting and content management pricing are expected to be sent mid-January 2019.

DECEMBER FIREWORKS PERIOD

(DECEMBER 20-MIDNIGHT, JANUARY 1)

DEADLINE TO ADOPT ORDER: DECEMBER 14, 2018

Local Government Code, §352.051 authorizes the commissioners court to adopt an order regulating certain fireworks in the unincorporated areas of the county under drought conditions. **The statute provides that the order must be adopted before December 15 of each year for the December fireworks period.**

If your county is designated a drought area, and your court wishes to adopt such an order, action must be taken before the deadline. To determine whether your county is designated a drought area, please visit the Texas Interagency Coordination Center website at tamu.edu/ticc/ or call the Texas Forest Service at (979) 458-7331. The Texas Forest Service has developed drought weblinks to assist your county in monitoring drought conditions more closely.

If the court decides to adopt an order, the order may prohibit or restrict the sale or use of "restricted fireworks", which are defined as "skyrockets with sticks" as classified in 49 Code of Federal Regulations, § 173.100(r)(2) in effect on October 1, 1986 and as missiles with fins. A violation of the order is a Class C misdemeanor. Also, a citizen can file suit for an injunction to prevent a violation or threatened violation of the order. An order issued by your court based on a Texas Forest Service determination will expire when the Texas Forest Service finds that your county is no longer in a drought condition.

In addition, during the December fireworks season, the commissioners court may make a determination under Local Government Code §352.051(c) that conditions on rural acreage not under cultivation for at least 12 months are extremely hazardous for the danger of fire because of high grass or dry vegetation and adopt an order to prohibit or restrict the sale or use of restricted fireworks in specified areas of the county. An order issued by the commissioners court based on its determination of extreme hazard for the danger of fire will expire on the date established in the order.

Under Local Government Code § 352.051(f), the county may also designate one or more "safe" areas where the use of restricted fireworks is not prohibited. In determining if an area may be considered "safe" the court should take into account whether adequate public safety and fire protection services are provided to the area.

A sample order is provided on the following page. If your court decides to designate "safe" areas, the sample order will need to be modified to include appropriate language. A copy of Local Government Code §352.051, the portions of the Occupations Code that define and explain permitted and prohibited fireworks, and a sample order prohibiting or restricting the sale of fireworks during this period are available online at county.org/fireworks. If you have any questions, please contact the TAC Legal Department at (888) 275-8224.

EXECUTIVE SUMMARY

Overview

We at Local Sanitation LLC. are pleased to present a bid and a plan of operation for the Tyler County Transfer Station in consideration of purchase. We have been a part of the community for many generations of family. The local economy, county appearance and longevity of family values are very important to us. We have a combined management experience of over 40 years and plan to continue to contribute to our community, with active participation such as local grants awarded to graduating seniors in our county's schools, involvement with FFA contributions and fund raisers and community clean projects that have taken place in Ivanhoe just to name a few. We also contribute to our youth programs such as baseball, softball, basketball and youth football where youngsters can stay active and create a positive growth path to produce productive citizens for our future. Community involvement as a 2019 Chamber of Commerce board member I plan to help with the continued growth of small and local business in our county.

With the purchase of the transfer station will come security of knowing that citizens will continue to have a choice between curbside service or a collection location to properly dispose of their household waste, also promoting clean county roads and creeks. With the digestion of research and of income reports provided by the county, we find ourselves with a unique opportunity to succeed with this endeavor of our company. We have had plans to purchase property and locate our office in the Woodville area, giving us a centrally located storefront for our countywide customers.

Plan

Infrastructure is currently in place for operations and will present a subtle change in day-to-day operations to be up and running. The station will remain open six (6) days a week and will also observe currently posted holidays. Rates to the residents of Tyler County will remain the same for a projected period of one (1) year to properly analyze expenditures that directly affect operation cost to the station. Rates for the collection station will remain as low as possible for county residents just as our curbside rates are the most competitive in East Texas.

County Commissioners will have opportunities to organize or direct community clean events or projects at discounted rates, "Cost of disposal only", up to 20 yards of material per precinct per calendar year. Commissioners will also have access to 20 yard containers placed at each county barn site for the collection of debris or accumulated debris' collected on county properties. These containers will be placed during the second quarter of 2019 and will be free of charge for the first dump per calendar year.

Bid

Local Sanitation, LLC. submits bid amount of **\$200,000.00** for the purchase of the Tyler County Transfer Station and all associated equipment.

Except as provided herein, no employee, agent, Dealer, or other person is authorized to give any warranties of any nature on behalf of Seller. Re: Commissioners Court Precinct Redistricting

Dear Judge Blanchette:

The subject of this cover letter will be familiar with those elected officials who were in office ten years ago. For those who were not, the process known as “redistricting” is required after each federal census. The procedures are complex and somewhat confusing. We will do everything we can to explain the process and expedite your compliance.

Redistricting-What Is It and Why We Do It

The term “redistricting” or alternatively “reapportionment” means the procedure that is required of all governmental entities that elect their governing body membership by election from individual districts (single-member districts) to periodically reassess their boundaries, and the population within those boundaries, to accomplish two things:

1. Retain reasonable numerical balance in terms of all population (men, women and children, rather than registered voters) within each district or precinct relative the other districts or precincts, within a tolerance of (+) or (-) 10% from an ideal size for local governments. If a county for example, has 10,000 individuals counted as residents in the upcoming 2020 census, each of the four county commissioner precincts should have approximately 2,500 persons living in each precinct. (10,000 divided by four=2,500).

In a typical county, however, the actual population of 10,000 persons will **not** be evenly distributed in the 2020 census count. Assume that Commissioners Court Precinct 1 has a population of 2,275 persons or 225 persons below the ideal size, Precinct 2 has a population of 2,500, exactly meeting the ideal, Precinct 3 has a population of 3,125 or 625 above the ideal size, and Precinct 4 has 2,100, or 400 below the ideal.

The “range” of deviation from the ideal of 2,500 is determined by calculating the percentage of “deviation” from the ideal. Using the numbers above, Precinct 4 is the most underpopulated by 400 persons, which is 16% below the ideal. The largest population above the ideal is in Precinct 3, with 625, or 34% above the ideal. If you

add -16% and +34% together, disregarding the plus or minus sign from the ideal, you have a total deviation of 50%. The maximum permitted by law is 10%. The boundaries of the county in this example must be altered to “balance” the population between the four precincts so that the difference between the largest precinct and the smallest precinct does not exceed 10%. This is done by reducing the physical boundaries of those precincts above the ideal and enlarging the boundaries of those precincts under the ideal size. The process of enlarging or reducing the physical boundaries of a political entity to achieve population and demographic balance is called “reapportionment”, since the population is being reallocated, or reapportioned among the four commissioners court precincts.

2. In rebalancing that population, additional care must be given under the Voting Rights Act of 1965 so that where minority residents within the jurisdiction compose a sizeable portion of the overall population, the boundaries drawn to accomplish numerical balance cannot either fragment, dilute or unfairly compact that minority population to restrict the minority’s ability to have an impact on the outcome of an election within the commissioner precinct where the minority population is located. Minority populations cannot be
 - a. “cracked”, or “fragmented” meaning that large concentrations of minority voters cannot be divided into several commissioner precincts, rather than left intact in a single or even multiple commissioners court precincts.
 - b. “packed”, meaning where minority populations are sufficient in numbers to compose large percentages in more than one precinct are packed into a single precinct, or
 - c. “stacked”, meaning where minority groups are stacked together to make an apparent voting majority, but where historic trends of low registration and turnout make that apparent majority less significant if grouped with a single, high registration and turnout minority.

Following the Supreme Court decision in *Avery v. Midland County*, 390 U.S. 474; 88 S. Ct. 1114, 20 L. Ed. 2d 45 (1968), Texas Commissioners Courts have been required to make a periodic assessment of their political boundaries to determine whether the boundaries retain sufficient "one-person-one-vote" balance. This requirement is now carried forward in Article 42.001 of the Texas Election Code and has been extended to virtually all political bodies that elect representatives from special member districts, or geographic regions of the political jurisdiction in which the candidates for representative office must reside.

Therefore, following each federal census, each Texas county, city, school district or other political entity electing representative officers from geographic regions of the sub-division should conduct an assessment of existing political boundaries. It should be carefully noted that simple comparisons between the county population of 2000 and 2010, or even a more sophisticated analysis

of urban and rural areas of the county might not reflect the true extent of population "change" each County has experienced over the last ten years.

Population "change" from a prior census total population to a more current census total population may not directly correlate to "different" or "new" population. For example, existing populations within a county will move considerably within the county since the last census, particularly in a county experiencing significant population growth or decline. A new subdivision may also cause movement within a county by a static population and require redrawing of political boundaries.

As a very general rule of thumb, any statistical change of population between the 2010 and 2020 census more than 3%, plus or minus, will indicate a likely need for redistricting in order to retain numerical balance between the governing body's representative districts. Only in rare circumstances will a county experiencing a population change in excess of 3% avoid the need for rather extensive reapportionment of the county Commissioners Court precinct lines.

However, any assumption that a population change of less than 3% will not require reapportionment is ill advised. Populations will shift within a county over time. Every county, city, school district or other political entity electing representative officers from geographic regions of the sub-division, even those with a rather insignificant overall population change, should carefully examine actual population demographics relative to their existing political lines to determine the need for reapportionment after each census.

That assessment must be done with the actual census block data. This census data, known as Public Law 94-171 files of the United States Census Bureau, allocates population to census blocks. Generally stated, these census blocks are defined by natural or man-made boundaries. Where these boundary lines close in an area, the population within that area is counted and broken into several demographic groups. Demographic data is then subject to being depicted in chart and graphic form for both total population as well as voting age population, and the racial profile of that population. By grouping census blocks together, voting precincts, and in turn all other elective precincts, including Commissioners Court, Justice of the Peace, or in cases of cities and school districts, wards and districts for the City Council and School board can be built. In turn, using the county election precincts as a basis, the larger State Representative, Senate, and Congressional districts can be assembled.

Using the guiding principle of "One-Person-One-Vote" balance between the four Commissioners Court Precincts, and the directives of the Voting Rights Act as a guide, each county will construct new political boundaries. These boundaries are based upon the entire county population, but the availability and analysis of voting age populations is also important.

Additional statutory requirements must also be kept in mind as election precincts are drafted. State law limits the size of election precincts to not less than 100 registered voters (counties under 100,000 in population may have as few as 50 registered voters, and upon petition by 25 registered voters, counties under 50,000 in population may have fewer than 50 registered voters in an election precinct), and not more than 5,000 registered voters per election precinct. (See §42.006, Texas Election Code, V.A.C.S.).

In counties inhabited by a significant minority population, the need to create one or more Commissioners Court Precincts that assure minority representation requires utilization of voting age information. While the actual political boundaries will be based upon total population, the viability of the resulting precinct in terms of the ability to elect requires analysis of voting age population.

Efforts to balance road mileage or to achieve other entirely practical adjustments of county boundaries can be included in the process but must be undertaken with great care to avoid unintended shifts of population which will either exceed the required numerical balance or violate the Voting Rights Act.

Because changes in Commissioners Court precinct boundaries will require modification of the individual election precincts making up each Commissioners Court precinct, there will also be changes in the Justice of the Peace/Constable precincts as a result of the modification of election precincts necessary to achieve the required level of precision necessary to balance population and address demographic requirements. As a result, all political boundaries in your county, from the Election Precinct to the Justice of the Peace and Commissioners Court Precincts will have to be evaluated and possibly revised. It is worth noting that only “representative” offices are subject to the one-person-one-vote requirement. Judicial offices are not required to be balanced by population. Justice of the Peace precincts are therefore not required to have the same number of residents, but these boundaries cannot be drafted in a manner that would violate the voting rights act, and as we have discussed above, changes in the underlying election precincts will have direct impact upon the Justice of the Peace precincts as well. For these reasons, many counties choose to use combinations of the Commissioners Court precincts as a basis for JP precincts to make voting administration easier and more understandable to the voter and more easily managed by election administration.

In prior years between 1972 and 2013, Texas political jurisdictions were required to submit any plan which affected election policies, practices, methods or procedures to the United States Department of Justice, Voting Rights Section, for review to determine whether or not that proposed change would have the effect of adversely affecting minority voting rights, and to obtain a finding that the proposed change would not have such an effect before the governmental entity could implement that change. This procedure, known as “pre-clearance” was required by Section 5 of the Voting Rights Act, 42 U.S.C. §1973c (now 52 U.S.C.A. §10304). In June of 2013, the United States Supreme Court held in *Shelby County, Alabama v. Holder*, 133 S.Ct. 2612, that the practice of “pre-clearance” was no longer operative. This decision held that the coverage formula which determined what jurisdictions were required to comply with the pre-clearance obligation was no longer necessarily valid and would require reconsideration and reauthorization by the Congress to determine if discriminatory practices were still being used to weaken minority voting rights. At this time, the Congress has not seen it necessary to reevaluate the need for pre-clearance procedures, so political jurisdictions are not required to submit any changes to the federal government before implementation. However, the state of voting rights law is in flux, and there are several pending cases that might result in further requirements, so we will need to be prepared for a potential re-imposition of this requirement

In any case, Section 2 of the Voting Rights Act remains fully functional. This section allows an interested party who believes a governmental entity has engaged in discriminatory practices that have the intent, *or the effect* of weakening minority voting rights to sue the

governmental entity to have a court examine the voting practice, policy or method to determine an alleged violation of the Voting Rights Act. Those plans, changes, policies, practices or methods that are found to be violative of the Voting Rights Act will subject the governmental unit to liability for all reasonable costs and attorney's fees necessary to redress the correction of the practice found to violate the Voting Rights Act, including Court Orders to revise, withdraw or otherwise cure the defect. Typically, if a violation of the law is found to exist, elections will be stayed pending a cure, so the expense of failing to comply with the law is prohibitive.

As a consequence, it is important that each county, as soon as practicable, identify and retain qualified expertise to assist the commissioners court in the analysis necessary to evaluate the existing boundaries, and where necessary to revise the numerical balance, to redraw such lines in a manner that will avoid potential claims of a violation of the Voting Rights Act or the U. S. Constitution.

STEPS IN REDISTRICTING

1. Identify current political boundaries, i.e. Commissioners Court and JP precincts for Counties, City Wards, school district wards, special district wards. Identify existing election precinct boundaries. The Texas Secretary of State maintains current data on each County. We will acquire this data and submit it back to the County for confirmation in advance of the release of redistricting data.
2. Locate all incumbent residence locations. Because continuity of political leadership is a valid governmental concern, it is permissible to take into account the retention of incumbent office holders in all but the most extreme cases. Every effort should be made to preserve political continuity in revising boundaries, but incumbent relocation has been required is rare cases.
3. Prepare for 2020 Census data. We will obtain in advance of the release of census data the format that will be used for data layout from the Census Bureau and will prepare tables, charts and maps using with mock data to field-test and conduct de-bugging of our analytical tools so that when the actual data is available, we have a proven method to reapportion your jurisdiction quickly and efficiently. The initial installment of our quoted fee will cover all of these preliminary steps.
4. April 2020-U.S. Census Bureau conducts population count.
5. January to February 2021-Census Bureau releases data. The relevant data for redistricting is known as the census data 5th count, which must be imported into computer files used to analyze the data.
6. April-May 2021: Analysis of population using existing boundaries with 2021 data, and preparation of a comprehensive "initial analysis" of your political boundaries to determine if redistricting is required. If our initial analysis reveals that your boundaries remain legally viable, you will have no obligation to proceed further, or to pay any more than our first installment.

7. Where our initial analysis reveals a legal obligation to redistrict, we will conduct reapportionment of Commissioners Court, Justice of the Peace and Election, approximately May through August, 2021.
8. Once the Commissioners Court boundaries are redrawn, we will conform election precincts to the new Commissioners Court boundaries and will also address city wards etc. This realignment of election precincts will also affect the boundaries of the Justice of the Peace/Constable precincts. August through September, 2021.
9. Congressional and state Legislative redistricting may impact some county precincts, requiring that some lines at the local level be redrawn following congressional and/or state legislative boundaries. All Political boundaries should be complete in time to allow for filing for public office in November, 2021.

OUR QUALIFICATIONS

The lawyers who compose the firm of Allison, Bass & Magee, LLP have more than 130 combined years of experience with redistricting. Jim Allison was on the Senate Staff of Barbara Jordan when Texas first came under the requirements of the Voting Rights Act and assisted in the state of Texas redistricting efforts during 1971. He was also on the staff of the Attorney General in 1981 and assisted in the redistricting work of the Texas Redistricting Board. He has successfully prepared and defended county redistricting plans since 1991. Bob Bass successfully defended his home county of Hale in voting rights litigation in 1978. The firm has been involved in redistricting preparation and litigation each redistricting cycle since 1983 and has provided legal representation in redistricting related matters to more Texas counties than any other law firm in the State of Texas.

Over the years, we have provided turn-key services to literally hundreds of separate political subdivisions. We are sensitive not only to the legal requirements of the process, but to the political and practical aspects as well. We strongly urge coordination between all political subdivisions located within a single county to increase ease of administration of county/city/school and special district elections. Our services include advance planning for the process, all necessary legal work, conducting public hearings, interaction with local interested parties and submission of the end-product reapportionment plan to state and federal authorities, and responding to any request for additional information. We coordinate with the Secretary of State's office in providing your new political boundaries to state election administrators and can provide assistance to your local election administrator in the implementation of the resulting reapportionment plan.

Our goal is to provide a complete, integrated, fixed fee program for political subdivisions to address the reapportionment process. We have provided similar programs since 1990 with complete success. To date, we have never failed to obtain a successful outcome for our client's reapportionment plans. We are pleased to offer once again what we believe to be the best support and service for your redistricting needs at the lowest possible price for a full-service program.

Our firm is notable for its "fixed fee" pricing structure. With the exception of the 12 more densely populated counties, the firm offers a pricing structure based upon the population of each county. This fee, detailed in the attached information, allows a county to budget the cost of

redistricting over as many as three (3) budget years. The larger counties may retain our services on an hourly rate basis.

We will provide a complete redistricting program for your needs pursuant to a flat rate/fixed-fee arrangement, so that you can spread the costs over several budget cycles:

FLAT RATE/FIXED FEE: Our fixed fee program requires no additional charges or expenses beyond our standard service agreement, *with the exception of the publication cost of advertising public hearings and required notices*, which will be billed separately and outside of our fee. The Flat Rate/Fixed Fee cost for your county is set out below. This fee will include the actual cost of data acquisition, initial analysis and publication of a written assessment, consultation with commissioners' court, interaction with local interested parties, presentations at public hearings, travel and other related expenses that are required for each client. The Flat Rate/Fixed Fee is based upon the population of the jurisdiction, the complexity of the demographic population, the anticipated difficulty of the process, and the corresponding cost of servicing the account with travel costs, including travel time and expense, lodging, long distance telephone, and equipment needs. There is no formula that can predict all project costs. However, the only additional costs not covered by our fixed fee program are the costs of publication of any and all required public notices for the project, including newspaper, internet, or tele-conferencing costs. Other firms may submit proposals with a lower initial cost, but you should make sure that the proposal offers comparative services through a full and comprehensive program. Some proposals provide for only one hearing and one reapportionment plan. These proposals require additional fees for alternative plans and additional public hearings.

1. The flat rate option is broken into three funding periods, as detailed below:
 - a. 1st Installment: An Initial Analysis Fee; This fee is based upon the County population, and ranges from \$5,000.00 to \$10,000.00. This Initial Analysis fee is due upon execution of our redistricting retainer agreement, and it will allow us to obtain from the County and the Secretary of State Elections Division, necessary data, such as existing political boundary files in electronic GIS data format, to develop templates for the receipt of 2020 census data, and eventually to acquire demographic data for your political entity, and to prepare an extensive written analysis of your current political boundaries within the context of the Voting Rights Act and state election law. Should our analysis of the 2020 census data reveal that your existing political boundaries are legally sufficient without change, the Initial Analysis fee will conclude our services, and you will not be required to redistrict under applicable law.

Timeline for Initial Analysis: The 2020 Census will be conducted in April of 2020, with the release of the demographic data expected as early as February 2021. Contracts for redistricting analysis should be planned for an initial expenditure no later than during formulation of the 2020 Budget in 2019, with actual expenditures falling due in the 2020, 2021 and 2022 budget years.

Your executed contract and the initial installment fee can be paid as early as October 31, 2018 but should be remitted ***not later than October 31, 2019*** to take advantage of our flat rate fee structure and to fully implement this plan.

- b. 2nd Installment, due on or before October 31, 2021. The amount of this installment will be the stated total amount, less the initial analysis fee retainer, with the remaining balance divided by two. The bulk of the work required to implement the redistricting project will be completed between February and September 1, 2021, but considerable advance work is required to build the necessary data analysis tools, and to work with you to identify your goals, aspirations and objectives in advance of the actual redistricting.
- c. 3rd Installment, due on or before October 31, 2022. The amount of this installment will be the remaining balance after subtraction from the total amount, less the initial retainer and the 2nd installment. All work necessary to the process will be completed well in advance of this date, which will fall into your third budget cycle from inception of the project.

All of our plans will include the same basic services. Our services will include:

1. An initial “workshop” conducted on site in your county to explain the process to members of the commissioners’ court, and any staff or support personnel to be involved in the work. This work will be conducted following the receipt of a signed retainer agreement and payment of the 1st Installment. As we are able to determine the distribution of counties using our services, we will schedule these early meetings in an efficient manner. Preliminary steps will include the drafting of redistricting criteria by which the various redistricting or reapportionment plans will be scored or judged. This preliminary work may be performed, with our assistance, by the executive body of the political body, i.e. the Commissioners Court or by a Citizens Committee appointed to by the Commissioners court to assist the governing body. A citizens committee is sometimes utilized to avoid politicization of the reapportionment process, and to relieve the elected body of the stress or pressure of the process.
2. Drafting of all required multi-language legal notices, documents and supporting charts and maps for all necessary hearings, procedures and implementation.
3. Once the census data is released in early 2021, we will conduct an “Initial Assessment” of your existing political boundaries to determine if these boundaries satisfy legal requirements imposed by either constitutional or statutory requirements. For example, the first determination is whether the 2020 population within existing boundaries remains within the so-called “one-person-one-vote” constitutional standard. This standard generally requires that each political boundary or precinct represented on the local government’s governing body be roughly equal in terms of population. Over time, populations will grow, decline, or shift unequally within the political boundaries of the local governmental entity.
4. If the Initial Assessment reveals a need for reapportionment, we will make that determination and advise you of the need to redraw your political boundaries. Federal law requires that any change of political boundaries to address population equality must also satisfy the Voting Rights Act, which requires that population demographics be considered in the drafting of political boundaries to avoid adverse impact upon minority populations. Finally, the structure of political boundaries must also comply with applicable state law, which does not permit

overlapping election precincts pertaining to commissioner's court precincts, justice of the peace precincts, city wards in some cities, and a variety of other state concerns regarding the administration of elections within each affected political subdivision. Once again, we will guide you through this complex process.

5. Drafting, either by working directly with the Commissioners Court, or with a Citizens Committee appointed by the Commissioners Court, as many as three (3) alternative plans that will satisfy federal and state law, at no additional costs. The three (3) fully developed plans, with complete maps, charts and analysis are included in the Allison, Bass & Magee program. Should your needs require additional alternative plans beyond the three (3) contractual plans provided for, we will quote you a "per plan" fee in advance upon request. This "per plan" fee will include all maps, charts and analysis, in a similar format to those provided under the original contract. Any requested additional plan beyond the minimum three (3), will be billed at our cost, including cost of legal time, support staff, and printing/reproduction costs.
6. Present the alternative plans in not less than one, but no more than two separate public hearings conducted in suitable locations within the political jurisdiction being reapportioned.
7. Following receipt of public comment, we will assist you in the consideration, selection and adoption of a final reapportionment plan, and subsequently prepare all necessary documentation necessary to comply with state and federal law, including legal notice of any hearing in which adoption of a plan will be considered and the recording of the adopted plan to the Secretary of State. Even though the submission of a plan and all necessary documents and supporting information necessary for evaluation by the Department of Justice is no longer required, we strongly believe that the preparation of a comprehensive plan with supporting documentation is necessary to protect you and your tax-payers from possible litigation. Essentially the same level of preparation formerly followed for submission of the adopted plan to the United States Department of Justice for preclearance under the requirements of Section 5 the Voting Rights Act will be continued, but the need for actual submission and preclearance is no longer a requirement. The final product will be provided in a set of binders which should be filed of record in the Minutes of the Commissioners Court, and preserved for use in the event of any litigation regarding your adopted plan.
8. We will coordinate the final adopted plan with the Secretary of State's office to ensure compliance with state law requirements.
9. We will work with your election coordinator/administrator to implement the resulting voting plan for your jurisdiction and seek to coordinate your political boundaries with other political jurisdictions.

In our experience, most political entities prefer alternative proposals to address the variety of interests that are involved in the reapportionment process. Our program provides these options without additional unbudgeted costs. Reasonable reapportionment decisions require reasonable alternatives. Be aware that a lower priced program may unduly restrict the number of alternative plans you can consider.

Additionally, our proposal's payment schedule is divided into three payments spread over at least three budget years. This spreads the costs of redistricting over future budgets as the services are provided. These payments are:

- (1) an initial fee that will cover the cost incurred to acquire census data and to prepare that data for the Initial Assessment. The Initial Fee is due upon execution of a contract retaining our firm. To ensure availability of this program, enrollment must be executed by no later than October 31, 2020, ***but earlier agreements are encouraged, including entering into agreements now in your 2019-20 budget.*** We have the capacity of handling a significant number of governmental entities, but we will be careful not to exceed our capacity, ***so first come will be first served.***
- (2) a 2nd Installment that will be due October 31, 2021, at the completion of the pre-census preparation for a reapportionment plan.
- (3) A 3rd Installment that will be due October 31, 2022, upon complete implementation of the reapportionment plan.

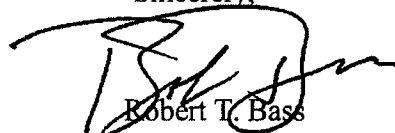

In the unusual circumstance of litigation, we will be available, under a separate contract, to provide legal counsel, expert testimony, or other support through all phases of litigation including appeal, if necessary, to the United States Supreme Court.

The cost of preparing and submitting a redistricting plan is dependent upon several factors, including the complexity of local demographics, communities of interest, and other political considerations. To a great extent, the degree to which all interested parties are able to reach a consensus will depend upon the quality of the advance planning and coordination of the project. While much of the initial public contact can be performed locally, it is usually to your advantage if our firm participates in that process. With our experience and state-of-the-art computerized mapping system, we can provide immediate responses to citizen and interest group inquiries and proposals.

As attested from the success of our past projects, we have the experience and expertise to successfully assist you in this difficult and complex process. We appreciate your interest in our firm and we would be pleased to have the opportunity to assist in this project. Should you wish to retain our firm, for purposes of conducting the initial assessment, and defer a decision on retention for full services till a later date, we have provided a contract for professional services for that purpose. If you are interested in more information, please let us know.

Sincerely,

James P. Allison
