Honorable Jacques Blanchette  
Tyler County Judge  
201 Veterans Way, Ste. 9  
Woodville, TX 75979

Dear Judge Blanchette,

The Texas Association of Counties Health and Employee Benefits Pool (TAC HEBP) is pleased to provide a quote for Group Voluntary Dental coverage for Tyler County's November 1, 2022 effective date.

Our proposed Dental Plan II with Orthodontics offers a higher annual maximum and a higher lifetime maximum for the orthodontia benefit at rates 14% below your current rates, which would be an improvement for Tyler County employees. The orthodontia benefit is available to members up to the age of 26. Our dental plans use the statewide BlueCare Dental PPO network, with providers available nationwide for members who need care outside of Texas or have dependents on the plan living elsewhere.

We appreciate our relationship with Tyler County over the past several years as the provider of your employee medical, vision, and life benefits. Rest assured that the same value and service will be provided to your employees and their families, should you elect to offer your dental benefits through TAC HEBP. We believe there is no better partner than TAC HEBP: the organization that is focused entirely on county needs. We are committed to providing the highest quality benefits at the best long-term cost. Please feel free to contact me at (512) 765-3108 or by email at [OrlandoE@county.org](mailto:OrlandoE@county.org) for any additional information.

Sincerely,

Orlando Espinoza, Employee Benefits Consultant

### PROVIDING ACCESS TO COMPETITIVE AND EXTENSIVE NETWORKS

It's simple; the larger the network, the greater the choices, convenience, and flexibility in choosing a network dentist. We have **more than 139,300 unique dental providers** making us one of the largest networks in the U.S. as well as one of the largest networks in the state, with **more than 11,900 unique providers**. This national network provides your employees access to fully credentialed providers, no balance billing by in-network dentists, and no referrals needed to see a specialist.

■ PPO discount savings **greater than 40%** ■ PPO discount savings **between 35-40%** ■ PPO discount savings **up to 35%**

\* Discount based on state average as of October 2018. Actual discount may vary by location.

## PROVIDING ACCESS TO COMPETITIVE AND EXTENSIVE NETWORKS

BCBSTX maintains strict credentialing standards for all providers. They outsource the credentialing process to Dentistat; a Credentialing Verification Organization that specializes in provider credentialing. If a dentist has been “Dentistat-certified,” they have been independently reviewed and certified by Dentistat and found to have proper credentials, appropriate utilization patterns, and are subject to ongoing utilization monitoring and re-credentialing.

## EXPANDING ON PROVEN SERVICE MODELS

Administration of your benefits should be as simple as smiling. We deliver added value by simplifying and lessening the administrative burden of your human resources department. Your group will gain the following administrative efficiencies by integrating dental coverage with their medical program:

- A fully-integrated dental program without incurring any additional integration expenses.
- Combining eligibility and billing processes streamlines implementation.
- Flexible plan designs and enhanced dental benefits.
- You will have access to combined medical and dental reporting to see membership changes, understand claims, and track in-network utilization by members.

Members also gain efficiency by using the same secure member website, Blue Access for Members<sup>SM</sup>, with access to dental product and provider information, dental claims, and our unique Dental Wellness Center<sup>TM</sup>. Your employees can rely on the expertise of our dental-only U.S.-based service centers that will provide a single point of contact for dental claims inquiries, customer service, and membership processing. Our service team comprises experienced customer advocates, technicians, and supervisors who will be able to handle any issues and see them through to completion.

## INTEGRATING INNOVATIVE WELLNESS OUTREACH AND SUPPORT

### BLUECARE DENTAL CONNECTION

Employees who are managing a high-risk medical condition will receive personalized dental wellness outreach at no added cost.

We implemented one of the most comprehensive and preventive dental wellness programs in the industry – the BlueCare® Dental Connection<sup>SM</sup> program. This unique wellness program takes a proactive approach to help prevent dental disease and more complicated and potentially costly medical problems from developing in the future. We are offering this program at no additional cost. The goal of the program is two-fold: to educate the member on the importance of proper oral care, and to change their behavior.

Through integrating medical and dental claims, our BlueCare Dental Connection program bridges the gap between oral health

We have found that consumers who take an active role in their health management are not only healthier but also are more productive, thereby resulting in a healthier workforce and substantial savings.

and overall health to help avoid potentially

serious medical conditions. Research shows a potential link between periodontal disease and other health problems such as heart disease, stroke, diabetes control, and premature birth. This unique program uses your medical claims data and compares it with dental data to create customized plans designed to improve health. This approach can help users optimize their overall health by helping them make better decisions

about their oral health through evidence-based research and information. The goal of this program is to improve health outcomes and ultimately reduce overall dental costs for both the member and employer. Part of this program includes outreach mailers to members identified as medically at risk for dental decay.
