Subject: Directv Quote

Good morning Donald, here is your Directv quote.

Because this is a jail house, it is considered a "lodging and institution" rather than a regular business account so the package is a bit different.

The monthly price for the Entertainment package and local channels is \$148 per month plus tax. This is a great monthly price and a locked in rate.

The installation and equipment is a bit more extensive than I first thought because it is L&I account and the receivers are a bit more expensive. I believe a one time \$4,500 installation fee should cover it. This includes 17 DRE High Def receivers, brackets, mounts, cables, splitters, amplifiers... everything required to give you the best experience similar to a hotel stay. Also included is our best technician traveling from Houston to provide a premium installation.

Please let me know if you have any questions. If this works for you, we can order equipment and should be able to install it next week. Look forward to working with you.
