Doug,

Attached is the visual showing our plans to slightly widen the County roads which bookend our site. The red dotted lines show the current extent of the roads, while the dark grey shows the extent of the roads in their planned future state. As discussed, we'd like to formally share our plans with the County Commissioners at the 11/13 session of the County Commissioners Court.

Please let me know if there is anything else you need from me.

Thanks,

Evan Landrum
