RESOLUTIONS/PROCLAMATIONS: none

CONSIDER/APPROVE/INFORMATIONAL:

A motion was made by **Commissioner Marshall** and seconded by **Commissioner Hudson** to
adopt the new county **Procedures for Electrical Permit Service Permits**. All commissioners
voted yes none no. Judge Powers explained the permit fee and the re-connect fees. He explained
the fee for re-connect fee would be waived unless it has been turned off for 90 days. Temporary

permits and permits for renting a house would also be waived. Utility companies are requiring the permits. All commissioners voted yes and none no. SEE ATTACHED

A motion was made by **Commissioner Blacksher** to approve housing inmates at Beauregard Parish Sheriff's department in Louisiana at the cost of \$60 per inmate. The motion was seconded by **Commissioner Hughes**. Sheriff Weatherford stated this would be for housing an overflow of inmates in the county jail. All commissioners voted yes and none no. SEE ATTACHED

The court discussed changing county policy with respect to paying certified peace officers, jailers and dispatch officers working for the sheriff's department for **holiday and vacation time** as opposed to permitting these employees to take time off work because of hardship relating to staffing shortages. Sheriff Weatherford requested holiday time be considered along with pay-out of vacation time. Leann stated there was not a policy covering holiday pay in lieu of time off; she suggested making it "by order of the commissioners court". She explained several aspects: carry over of time had been allowed for the sheriff's department in the past; pay up to \$1000 with remainder going into sick time. In January the sheriff deputies get a "dump" of holiday hours into their pool. Sheriff Weatherford pointed out that vacation and holiday time was earned but would lose that time if carried over as sick time. Jackie requested the court specifically state the stipulations. She also asks the court to consider ceasing giving all holidays at the beginning and consider paying the overtime/double time at the time earned to alleviate complications when the employee's employment ends. Based on recommendation of the sheriff,

Commissioner Marshall motioned to change county policy to authorize paying certified peace officers, jailers and dispatch officers working for the sheriff's department all **holiday time** to be "zeroed out" along with paying out what the employee would lose for **vacation time** (paying down to the conditions of the maximum carry-over allowed), as opposed to permitting these employees to take time off work because of hardship relating to staffing shortages.

Commissioner Hudson seconded the motion. **Commissioner Hudson** made a motion to amend the main motion by striking out the words "changing county policy" and inserting "by order of commissioners court". **Commissioner Blacksher** seconded the motion. All commissioners voted yes and none no. The main motion now reads by order of the commissioners court, to authorize paying certified peace officers, jailers and dispatch officers working for the sheriff's department all **holiday time** to be "zeroed out" along with paying out what the employee would lose for **vacation time** (paying down to the conditions of the maximum carry-over allowed for vacation time), as opposed to permitting these employees to take time off work because of hardship relating to staffing shortages.

Commissioner Blacksher motioned to grant conditional approval of **Timberland Branch Subdivision**. The conditions before the plat can be filed are: 1) the engineer certification shall be on the plat, the engineer's letter should be more specific as to what is being attested to. The terms "to be best of my knowledge" and "substantially completed" are general and effectively put the burden on the commissioner that the improvements are constructed in accordance with the plans and the County's Regulations. Combined with the commissioner's construction observation, the engineer's certification should provide a high level of confidence that the road and drainage do conform to the Subdivision Regulations. **Commissioner Hudson** seconded the motion. All commissioners voted yes and none no. SEE ATTACHED
