

LOGIC ENROLLMENT STEPS

In order for a governmental entity to enroll in LOGIC, the following procedures should be performed.

- Submit the Resolution in the form entitled Application for Participation in LOGIC to the entity's governing body for approval.
- Complete and sign the Application for Participation in LOGIC. The
 Resolution in the form of the application should be signed by Board Officer,
 County Judge, or City Mayor and attested by Board Officer, County Clerk, or
 Secretary. The entity seal should be included in the space provided. A notary
 seal is unacceptable.
- 3. Complete a Bank Instruction Form for each account to be opened.
- 4. Send all completed documentation with original signatures and an approved investment policy of the enrolling entity to our email or fax number below:

Email: logic@hilltopsecurities.com

Fax: 214.953.8878

Enrollment documentation will ordinarily be processed within five (5) business days of receipt.

SAMPLE AGENDA LANGUAGE

Short versions:

- (1) Approval of LOGIC Investment Pool as an Authorized Investment
- (2) Approval of Application for Participation in the Local Government Investment Cooperative (LOGIC)

Long versions:

- (1) Recommendation to Approve an Application for Participation in the Local Government Investment Cooperative (LOGIC) Trust. Included in the agenda exhibit is information pertaining to the application. It is recommended that the Board approve the application as submitted.
- (2)Recommendation to Approve an Application for Participation in the Local Government Investment Cooperative (LOGIC) Trust. Included in the agenda exhibit is information pertaining to the application. It is recommended that the Board approve the application as submitted to provide the district with an additional investment option emphasizing safety and liquidity.

APPLICATION FOR PARTICIPATION IN LOGIC

The undersigned local government (Applicant) applies and agrees to become a Participant in the Local Government Investment Cooperative (LOGIC) Trust.

1.	Authorization. The governing body of Applicant har resolution at a meeting of such governing body duly of Meeting Law, chapter 551, Texas Government Code, or	as duly authorized this application by adopting the following called, noticed, and held in accordance with the Texas Open on, 20:
	WHEREAS, it is in the best interests of this government eligible investing entities in the Local Government Inve and safeguard the principal and liquidity of such funds	al unit ("Applicant") to invest its funds jointly with other Texas stment Cooperative (LOGIC) Trust in order better to preserve and to earn an acceptable yield; and
	WHEREAS, Applicant is authorized to invest its public fi the Participation Agreement and Trust Instrument author	unds and funds under its control in LOGIC and to enter into prized herein;
	Now, Therefore, Be it Resolved That:	
	deposit and withdraw funds, to agree to the terms for u	OGIC attached to this resolution is approved. The officers of o execute and submit the application, to open accounts, to use of the website for online transactions, to designate other or required or permitted by Applicant under the Agreement of Applicant.
	Section 2. This resolution will continue in full force an notice of the amendment or revocation is delivered to the	d effect until amended or revoked by Applicant and written e LOGIC Board of Trustees.
	SECTION 3. Terms used in this resolution have the mean	ings given to them by the application."

Rates reflect historical information and are not an indication of future performance.

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instruction to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the noxt readjustment of the interest rate.
(2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

The maximum management fee authorized for the LOGIC Cast: Reserve Fund is 12 basis points. This fee may be waved in full or in part in the discretion of the LOGIC co-administrators at any time as provided for in the LOGIC Information Statement.

NEW PARTICIPANTS

We would like to welcome the following entities who joined the LOGIC program in May:

- * City of Godley * City of Leary * City of Pineland * City of White Settlement
- * Dimmit County * Fort Worth Transportation Authority * Presidio County

HOLIDAY REMINDER

In observance of Juneteenth National Independence Day, LOGIC will be closed on Wednesday, June 19, 2024. All ACH transactions initiated on Tuesday, June 18th will settle on Thursday, June 20th. Please note that on Tuesday, June 18th, LOGIC will close at its normal time.

In observance of **Independence Day, LOGIC will be closed on Thursday, July 4, 2024.** All ACH transactions initiated on Wednesday, July 3rd will settle on Friday, July 5th. Notification of any early transaction deadlines on the business day preceding this holiday will be sent by email to the primary contact on file for all LOGIC participants.

ECONOMIC COMMENTARY

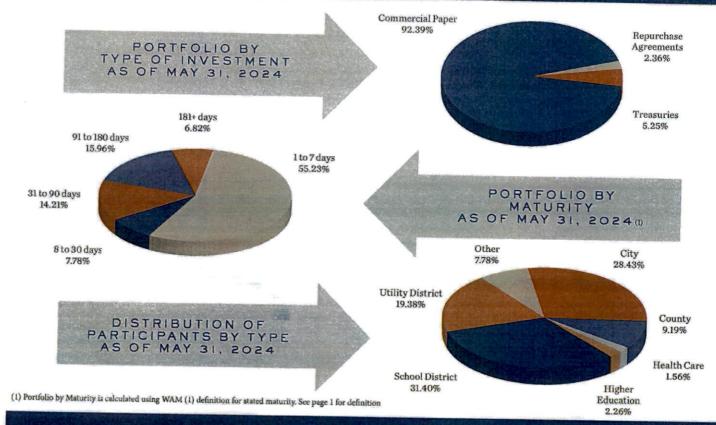

Market review

Weaker economic data in May contrasted with the picture of resilient U.S. growth so far this year. Following three consecutive months of unexpectedly hot inflation and strong employment figures, which sparked concerns that the Federal Reserve (Fed) may need to keep interest rates higher for longer, consumption, employment and inflation moderated, providing some much-needed relief in markets. Recent data suggested that growth is comfortably cooling from last year's robust pace. In the second revision, first quarter GDP growth was adjusted downward from an annual rate of 1.6% to 1.3%. Consumer spending rose by a downwardly revised 2.0% as spending on services more than offset a decline in goods spending, while the volatile trade and inventories components detracted from growth. However, real final sales to private domestic purchasers, which exclude these volatile segments, rose by a solid 2.8%. There were some signs that the consumer was losing momentum in April, with a 0.1% month-over-month (m/m) contraction in real personal spending, as personal income declined. The savings rate lingered well below pre-pandemic norms at 3.6% year-over-year (y/y), and consumers increasingly relied on credit cards for spending. Consumer confidence waned as the University of Michigan Consumer Sentiment Index in May declined to its lowest level in six months.

The April Jobs report was milder than expected and provided welcome assurance that the labor market is not adding to inflationary pressures. Nonfarm payrolls increased by 175,000, falling short of the expected 220,000, with a net downward revision of 22,000 for February and March.

ECONOMIC COMMENTARY (cont.)

In the household survey, the labor force was mostly unchanged, and the unemployment rate moved up slightly to 3.9%. Elsewhere, wage growth rose to 0.2% m/m and moderated to 3.9% y/y. This marks the softest y/y increase in wages since June 2021. In addition, labor demand continued to normalize as the Job Openings and Labor Turnover Survey indicated the number of job openings decreased from 8.49 million in March to 8.06 million in April bringing the ratio of job openings to unemployed back to pre-Covid levels.

The April CPI report showed a small but welcome moderation in inflation, prompting many Fed policy makers, including Chair Powell, to express that further rate hikes are unlikely. Headline CPI rose 0.3% m/m and 3.4% y/y, while the core measure rose 0.3% m/m and 3.6% y/y. Energy prices rose due to a 2.8% m/m increase in gasoline prices, which, along with a 0.4% m/m increase in shelter, contributed over 70% of this month's headline inflation number. Core goods disinflation continued, as lower vehicle prices offset higher apparel prices. Core services inflation, boosted by auto insurance, remained elevated, although its 3-month annualized run rate fell to 6.3%. Elsewhere, headline and core PCE both held steady at 2.7% and 2.8% y/y, respectively.

As expected, the Federal Open Market Committee (FOMC) kept the federal funds rate steady at 5.25%-5.50% at its May 1st meeting and announced a slower pace of quantitative tightening beginning in June. The meeting minutes, released later in the month, indicated that many participants remained uncertain about the degree of policy restrictiveness given stronger than expected inflation prints in the first quarter. The Committee remained data dependent and reiterated its need for further evidence that inflation is moving sustainably towards its 2% target in order to consider policy easing. As economic data normalized in May, Treasury yields declined out the curve. The three-month Treasury bill yield barely moved, ending the month modestly up 1 basis point (bp) at 5.41%. Longer Treasury yields declined more dramatically with one- and two-year Treasury yields falling 6 bps and 16 bps, to 5.18% and 4.87%, respectively.

Outlook

Despite earlier fears about an overheating economy, recent data indicates that the economy is moving towards a soft-landing. Economic growth should continue to moderate from the heady pace in the second half of 2023. Two months into the second quarter, the Atlanta Fed GDPNow estimate for real GDP growth in Q2 is currently 1.8%, down from 2.7%. Given the concerns about a potential reacceleration of inflation in the first quarter, the Fed remains data dependent and will likely need to see a few more months of cooler inflation prints to gain confidence inflation is moving sustainably toward 2%. Overall, the labor market continues to show healthy job growth without renewing concerns about inflation. As the Fed remains on pause, easing pressure from shelter and auto insurance should allow inflation to slowly descend through the summer. We now believe there may be only one rate cut this year, most likely after the presidential election.

Weaker economic data in May contrasted with the picture of resilient U.S. growth so far this year. Following three consecutive months of unexpectedly hot ir flation and strong employment figures, which sparked concerns that the Federal Reserve (Fed) may need to keep interest rates higher for longer, consumption, employment and inflation moderated, providing some much-needed relief in markets. Recent data suggested that growth is comfortably cooling from last year's robust pace. In the second revision, first quarter GDP growth was adjusted downward from an annual rate of 1.6% to 1.3%. Consumer spending rose by a downwardly revised 2.0% as spending on services more than offset a decline in goods spending, while the volatile trade and inventories components detracted from growth. However, real final sales to private domestic purchasers, which exclude these volatile segments, rose by a solid 2.8%. There were some signs that the consumer was losing momentum in April, with a 0.1% month-over-month (m/m) contraction in real personal spending, as personal income declined. The savings rate lingered well below prepandemic norms at 3.6% year-over-year (y/y), and consumers increasingly relied on credit cards for spending. Consumer confidence waned as the University of Michigan Consumer Sentiment Index in May declined to its lowest level in six months.

The April Jobs report was milder than expected and provided welcome assurance that the labor market is not adding to inflationary pressures. Nonfarm payrolls increased by 175,000, falling short of the expected 220,000, with a net downward revision of 22,000 for February and March.

ECONOMIC COMMENTARY (cont.)

In the household survey, the labor force was mostly unchanged, and the unemployment rate moved up slightly to 3.9%. Elsewhere, wage growth rose to 0.2% m/m and moderated to 3.9% y/y. This marks the softest y/y increase in wages since June 2021. In addition, labor demand continued to normalize as the Job Openings and Labor Turnover Survey indicated the number of job openings decreased from 8.49 million in March to 8.06 million in April bringing the ratio of job openings to unemployed back to pre-Covid levels.

The April CPI report showed a small but welcome moderation in inflation, prompting many Fed policy makers, including Chair Powell, to express that further rate hikes are unlikely. Headline CPI rose 0.3% m/m and 3.4% y/y, while the core measure rose 0.3% m/m and 3.6% y/y. Energy prices rose due to a 2.8% m/m increase in gasoline prices, which, along with a 0.4% m/m increase in shelter, contributed over 70% of this month's headline inflation number. Core goods disinflation continued, as lower vehicle prices offset higher apparel prices. Core services inflation, boosted by auto insurance, remained elevated, although its 3-month annualized run rate fell to 6.3%. Elsewhere, headline and core PCE both held steady at 2.7% and 2.8% y/y, respectively.

As expected, the Federal Open Market Committee (FOMC) kept the federal funds rate steady at 5.25%-5.50% at its May 1st meeting and announced a slower pace of quantitative tightening beginning in June. The meeting minutes, released later in the month, indicated that many participants remained uncertain about the degree of policy restrictiveness given stronger than expected inflation prints in the first quarter. The Committee remained data dependent and reiterated its need for further evidence that inflation is moving sustainably towards its 2% target in order to consider policy easing. As economic data normalized in May, Treasury yields declined out the curve. The three-month Treasury bill yield barely moved, ending the month modestly up 1 basis point (bp) at 5.41%. Longer Treasury yields declined more dramatically with one- and two-year Treasury yields falling 6 bps and 16 bps, to 5.18% and 4.87%, respectively.

Outlook

Despite earlier fears about an overheating economy, recent data indicates that the economy is moving towards a soft-landing. Economic growth should continue to moderate from the heady pace in the second half of 2023. Two months into the second quarter, the Atlanta Fed GDPNow estimate for real GDP growth in Q2 is currently 1.8%, down from 2.7%. Given the concerns about a potential reacceleration of inflation in the first quarter, the Fed remains data dependent and will likely need to see a few more months of cooler inflation prints to gain confidence inflation is moving sustainably toward 2%. Overall, the labor market continues to show healthy job growth without renewing concerns about inflation. As the Fed remains on pause, easing pressure from shelter and auto insurance should allow inflation to slowly descend through the summer. We now believe there may be only one rate cut this year, most likely after the presidential election.
